Help prevent identity fraud and check washing with the new **Wedgy Secure™** and **Secure Ink Refills** that fit in any standard pen!

See page 29

Security Pens

Chain & Replacement Counter Pens

MMF **Secure-A-Pen**®, **Chain-Riter**® and **Wedgy**® pens offer antimicrobial protection originating from a naturally-occurring silver technology that prevents bacterial and fungal growth on the surface of the pen. This long lasting protection evolves from an environmentally friendly technology and is EPA and FDA approved†.

†Antimicrobial protection is limited to the treated article and does not protect a user against disease causing bacteria. Always clean products thoroughly after each use.

A-B Secure-A-Pen® Counter Pens

- *Unique design encases entire pen, making refills quick and easy to replace*
- Medium-point pen features rubberized grip and ridges
- Round base is backed with adhesive and secures to any clean, flat surface
- Chain extends to length of 24" for maximum desk coverage
- Color of pen is color of ink

MMF Counter Security Pens are made strong to stay put!

- *Ergonomically designed pens are tamper, theft and damage-resistant!*

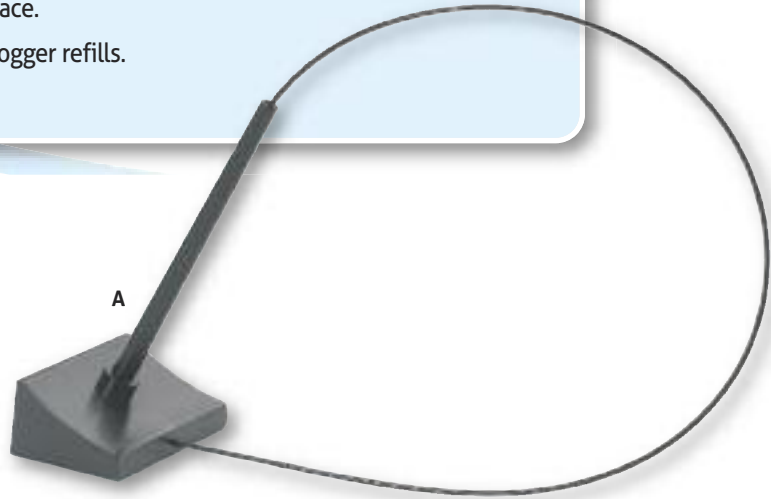

Durable anodized aluminum pens feature a tapered barrel. Unique locking sleeve discourages attempts to dismantle it, yet can be easily unlocked without special tools for refills. Damage-resistant, spring-loaded tip retracts into pen if hit against a hard surface. Sturdy base mounts easily with double-backed adhesive to any clean, hard surface.

Kable®, **Sentry™** and **Re-Trac-To™** pens use Jumbo Jogger refills. Refills are available (sold separately, see page 31).

A. Kable® Base and Pen Set
